Vide Pt-3 the suggestion of the Tuticorin Distt that the Deputy Comrs of Distts may be empowered to take disciplinary action against the sanitary staff working in the Municipalities whenever necessary & to order their transfer from one place to another within the District

1) The sanitary Inspectors or Asst Sanitary Inspectors are employed by a Municipality and are paid out of Municipal funds it is but right that they should be amenable to the control of the Municipal Council or their Executive Officer according to standing orders, as the Sanitary Inspector belongs to a provincial cadre, the Director of P H has powers of transfer or other disciplinary powers Beyond these two authorities, it would not perhaps be correct to introduce third authority viz the D-C of a District to wield powers over these subordinates It is likely that the discretion of the subordinate would become very difficult, with too many masters It will however be seen

from paras 7 to 11 of the note thereon the Dr of P-H has set forth clearly the powers to be exercised over these subordinates by the Ml Presidents, the D-c of the Dy of P-H. These facts may be brought to the notice of the Dc Even in cases where the D-c wants to effect the transfer of an Asstt Surgeon from one Mly to another, the best thing would be to refer the matter to the Dr of P-H himself for issue of necessary orders. That would ensure uniformity and centralized disciplinary control over these subordinates

Sir

I have the honour to state that there is no specific provision either under the Town Municipalities Act of - 1933 or under any other orders of Government, empowering the Deputy Commissioners of Districts for taking dis - ciplinary action against the Sanitary and Assistant - Sanitary Inspectors, whenever necessary as they are officials of the Health Department lent to Local bodies In the latter part of para 6 of G O No L 4244-65/L B 105-33-15 dated 17th December 1934 sanctioning the revision of the scale of pay and prospects of the Sanitary Inspectors and Assistant Sanitary Inspectors, it is stated that the local bodies will have control over their Sanitary Inspectors etc, without prejudice to the general control of the Director of Public Health, who may in the intersts of Public service, take disciplinary action whenever necessary

In view of the above G O reference will have to be made to the Director of Public Health now and then for disciplinary action against such subordinates either for their slackness in the discharge of their duty or for misconduct etc, as the case may be which would really take some time In order to avoid delay in taking immediate action and to enforce better and effective control over the Sanitary staff, within the - Districts, I am of opinion that it would be highly desirable (both in the interests of the Municipality and the Public so far as the Health and sanitary conditions are concerned) that

P T O

that the Deputy Commissioners of Districts be empowered to take disciplinary action against the sanitary staff whenever necessary and to order their transfers from one place to another within the District

I request that necessary orders of Government may be kindly obtained in the matter

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Tumkur District
